EDITORIAL

Wasatch County Commissioners have a definite interest in the people of the community.

During their past meeting, the commissioners received a report from Sharon Paradise about the work that has taken place in the newly founded Wasatch Alcohol and Drug Abuse Clinic.

In her report, Ms. Paradise stated that the clinic was busily becoming swamped with new referrals and new clinic patients.

Ms. Paradise reported that the clinic would be busy thanks to the efforts of the County Commission and the Wasatch County Sheriff's department. Between the interest of the two, there was plenty of monies available and plenty of referrals.

The state has varified the work that Ms. Paradise has been doing. We congratulate her for her efforts and the strong support that the county officials give her.
